

SEA COAST

CUSTOM IMPRINTED
BIKE & SPORT BOTTLES
2021

About Us

The management team behind Seacoast Bottles has been supplying bike bottles to the Cycling and Sporting Goods communities since 1989. It's safe to say we know a little bit about bike bottles having sold more of them over the past 30 years or so than most anyone else as far as we can tell.

Seacoast will always strive to maintain our management's 30 year personal legacy as the "World's Best" Bottle and Print quality supplier.

Our printing contractors created 4-Color process printing on bike bottles and have been hailed by customer and competitors alike as master craftsmen.

Our helpful staff interface with your personnel on bottle imprint issues. We gladly assist clients in their selection of bottle, size, color and creation and/or placement of content, graphics, etc. Your custom print project will be in good hands.

Our motto: A Quality Bottle for Any Promotion • Any Budget • Delivered ON TIME!

Your Shop Name - All Over Town!

Your Opportunity!

The current "Bike Boom" provides a perfect opportunity for you to spread information about your shop far and wide. Custom imprinted bike bottles are moving billboards that carry your message everywhere new and current riders gather... all over town.

Don't wait - Order Today!

Bottles shipped in 7-10 business days from all approvals.

Seacoast Customers - Just send us an email - sales@seacoastbottles.com

Use the subject line: "Reorder" or text "Reorder" to 562-448-8004.

We have your art, order history & distributor preference on file.

Not a current Seacoast Customer? - it's OK, we've got plenty of bottles.

If we run out, we'll make more and still make your ship date.

Yes. We're that good!

Send us an email or call us at 888-551-9009.

We'll send you all you need to get started. Call us today.

You'll be glad you did. Us too!

BIKE BOTTLES

Our Specialty

Bike Bottles aren't just for bikes anymore.

We see them everywhere ... at the beach, office, school, conferences, etc.

We feature EZ-Squeeze bottles as sold in bike shops as well as a low cost promo model - plus a wide selection of lids including our new PowerFlow one-way valve lid and our high performance SuperFlow push-pull lid.

Sun-Activated Color Change Bottles

21 oz. 25 oz. 14 oz.

These Bottles Magically Change Color when Exposed To The Sun!

When brought back indoors, they slowly transform back to Frosted Clear. This effect can be repeated hundreds of times.

See page 13

After the Ride ... tired?... thirsty?

Everybody needs to wind down after an exhilarating ride with friends. A time to kick back and chill for a little while with your favorite beverage.

A hot cup of coffee on a cool spring evening. A cold glass of beer on a hot thirsty day. Perhaps a glass of wine or other beverage with friends - any time, anyplace.

Additional colors available with Minimums.

White

SB-20001
20 oz. HDPE

Why so Cheap? What's wrong with them?

Don't let the low price fool you. This is a quality bottle, but it's also an economy bottle. It has a smaller cap size with a hard plastic plunger and it's made of HDPE, a stiffer plastic than our premium bottles - so it's not as easy to squeeze.

We are limited to printing one ink color on one side and you have to put the caps on the bottles yourself. BUT - if you have an event that's too big for your bottle budget, or want a low cost bottle to give away to casual riders, this bottle is the answer.

SB-24001 also available in Soft, EZ-to squeeze LDPE (see page 7)

SB-24001
24 oz. HDPE

Custom Printing

Our Specialty

Our Seacoast Bottles can be imprinted with your shop name, logo, and event. These "moving billboards" will be seen all over town. Perfect as an add-on sale or a deal closer ... and they identify your shop as a friend of the environment.

All the Features You're Looking For...

Our team has been a key supplier to the bike industry since 1990. We probably make bottles for some of the bike brands you're selling in your shop.

Why Pay More?

Our bottles feature: A Wide Mouth with Leak proof 63mm Caps and Soft Poppet. They are Soft-EZ to Squeeze and are BPA and Phthalate Free, Recyclable, Reusable, CA Prop 65 Compliant and are made with Recycled FDA Approved Plastic Materials in the USA! (whew!)

We now offer three cap choices including our new Hi-Performance SuperFlow Cap - twice the flow and virtually unbreakable, and our PowerFlow One-Way Valve Cap.

We believe we can give you a better product at a lower price. Call your Seacoast Distributor sales representative or check out the price list and order form (link can be found below). 15 minutes could save you more than the gecko (on bottles, not insurance).

Need to be Convinced?

Try It Before You Buy It! Just email us and we'll send you a FREE SAMPLE (bike dealers only). Email sales@seacoastbottles.com.

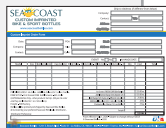

We've Made It Easy - Step by Step Instructions

Go to www.seacoastbottles.com Home Page and click on "Start Here"

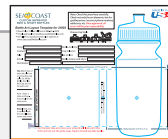

1 Download pdf Order Form

- Choose Your:
- Bottle Style & Color(s)
(from product page).
- Quantity & Price
- Ink Color(s)
- Cap Style & Color

Download the Art Template for the bottle selected (note:

- ### 2
- A link is on each product page). Show us where you want your logo, and tell us what information you want to include and a rough idea of placement by writing it on the template.

No Logo - No Problem!
Check our Art Ideas or send us your information and we'll send you a few ideas to choose from (I said, "We've made it easy!").

3 Need Ideas?

You can mix and match bottle and cap color. We suggest a contrasting cap color that matches your ink color ... white bottle with red ink, red cap, etc.

Art Tips
See Pg 27

Need More Help?

Call us: 888-551-9009
or email us at sales@SeacoastBikeBottles.com

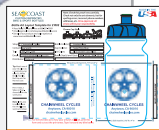

4

Email us the completed order form and artwork to: sales@seacoastbottles.com

Note: Art must be in a vector format (Adobe Illustrator preferred).

You will receive an art proof for your approval from Seacoast Bottles prior to printing.

5 Corrections? Changes? Approval?

Once you approve the art we will send your order to your preferred distributor for approval.

6 Sit back and Relax

Once we have all approvals we'll print and ship your bottles in 7 - 10 business days.

Easy Peasy!

Note: We also offer
3 Day Rush
Service

SEA COAST
BIKE BOTTLES

Seacoast Bike Bottles has made it easy for you to create great looking custom imprint bottles for your shop or event.

On the following pages, choose the Bottle Art Idea (by number) and substitute your Shop Name, Telephone, URL, etc. In place of the dealer info shown in the art examples and *Presto! Chango! Great Camera Ready Art!*

All of the art can be produced in multi-color. A few of the designs are shown with 2, 3 or 4 ink colors. Although you may choose any ink color you wish, we recommend you choose colors that match one of our many Cap Colors.

We also recommend light ink colors on dark bottles colors and dark ink colors on light color bottles ... black ink on black bottles is never a good idea!

Art Tips

- 1 Two ink colors are better than one. The added cost pays big dividends.
- 2 Contrast Bottle and Cap colors at no extra cost. Choose a cap color that matches 1 of the ink colors to enhance the look and perceived value.
- 3 For best results, print dark colors on light bottles and light colors on dark bottles.
- 4 Print on the top panel of our 25, 26 & 28 oz. bottles - one color at no extra cost. It's an excellent location to feature phone numbers, web sites, slogans, etc.
- 5 Big, bold graphics always work best. The less copy the better.
- 6 The better your bottle looks, feels and performs, the longer your client will use it and see your message. Quality sells... and keeps on selling!

FAQ - Frequently Asked Questions

Why Seacoast Bottles? Our bottles are made of the highest quality materials on earth. They are very eco-friendly (Recyclable, Made with Recycled Materials, etc.) and are priced equal or lower to less ecological competitive products. Our management team has been supplying the cycling and Promotional products community for over 25 years. Such longevity speaks volumes about product quality and customer satisfaction.

What if you don't have the exact color I need? Can I have bottles and caps made in my own special color? Yes. Please call for details.

Can the bottle and cap be two different colors? Is there an extra cost? There is no extra charge for contrasting color caps. If you imprint the bottle, we suggest matching one of your ink colors to the cap color for best results.

Why are multiple ink colors so important? Just the addition of a second ink color raises the perceived value and effectiveness of the bottle dramatically. When one of the ink colors matches the cap color it adds even more excitement to the product.

Can I print in multiple bottle locations for no extra charge? Yes. On selected models, we do not charge per location, but per ink color.

What is the imprint area and do you provide imprint art templates? There is a link to the correct art template on every product on our web site: www.SeacoastBottles.com

How many and what ink colors can I use? Standard Ink Colors are shown on page 26. Any ink color in the Pantone PMS color book is available for \$45). We can print up to 8 spot colors or in 4-Color Process with perfect registration on our LDPE bottles (see pages 5-9 and 13).

When should I consider using 4-Color Process? When a photographic reproduction is necessary or when the logo or image contains more than 4 colors. Please click 4-Color Process for details.

How can I see a sample of what I'm getting before I buy? Free virtual sample with your logo (computer file) or a pre-production sample (Cost \$75).

What if I don't have "Camera Ready" art? "Camera Ready" art is art that is in its final form. We can make your art camera ready. There is no charge for the first 1/2 hour of artist time. Additional time is charged at a rate of \$35 per half hour.

What is the best format for me to use in creating my art? Please Art Tips (page 27) for complete information.

What is the best way for me to get my art to Seacoast for printing? Art files can be emailed to Art@SeacoastBottles.com or it can be sent by UPS, Fedex or regular mail.

What? Why? How?

MADE IN THE
USA

Standard Ink Colors - 4-Color Process

Standard Ink Colors

We offer a wide selection of Standard Ink Colors - All other ink colors are subject to a \$45 PMS color match charge. Color numbers relate to Pantone Solid Coated Colors in the PMS Chart.

	Black		Brown PMS 469		Yellow Gold PMS 123
	White		Purple PMS 266		Yellow PMS 116
	Reflex Blue		Pink PMS 189		Light Gray PMS 429
	Navy Blue PMS 282		Kelly Green PMS 347		Dark Gray PMS 432
	Royal Blue PMS 293		Forest Green PMS 350		Metallic Gold - PMS 871
	Red - PMS 200		Teal PMS 322		Metallic Silver PMS 877
	Maroon PMS 202		Orange PMS 165		Metallic Copper PMS 876

Due to the variations in material, imprint methods, and ink opacity, exact color matching cannot be guaranteed on all colored substrates.

4-Color Process Printing

4 Color Process printing gives you the opportunity to create truly unique custom bottle art - designs that grab attention. We can now provide small quantity photographic style printing on a budget. It costs less than you think.

Finished bottle prices are competitive with normal 4 color spot printing. Call us for a quote on your specific job. Setup includes separations, film positives, 4-screens, and a pre-production sample.

4-Color art on Black, Blue, Red, Purple, etc. Bottles - If you choose a bottle color other than white, there will need to be a white under coat which increases the cost by an additional 30¢ per bottle and adds \$50.00 to the set up cost.

Here's how it works - We print one process color at a time - one on top of the other. The final result is a full color graphic. For complete details visit: https://en.wikipedia.org/wiki/CMYK_color_model

4-Color Process printing is available on the following:

S-09002 - Pg.12
S-14002 - Pg.12
S-14902 - Pg.13
S-21002 - Pg. 6

S-21902 - Pg.13
S-24002 - Pg. 7
S-25002 - Pg. 6

S-25902 - Pg.13
S-26002 - Pg. 8
S-28002 - Pg. 7

Sell Quality

- **Your Name** - Years ago an electronics company used as their tag line, "The Quality Goes in Before the Name Goes On". If we were to borrow from that we would say, "*The QUALITY Goes in Before YOUR NAME Goes On!*"
- **False Economy** - We're always surprised by the "Brand Name" company or event that will put their logo ... which represents their hard fought and well earned reputation for quality, performance and service ... on a cheap, low quality promotional item. Even if the product is a freebie, direct mail or trade show give-away – to the end user or consumer, it still reflects on the image of the company whose logo it bears.
- **Ouch!** - If it's a water bottle and it leaks, is hard to squeeze, or the image is poorly printed it will speak poorly of the company whose name is on it.
- **Quality Goes In** - We take the trust you place in us seriously. We guard your image as if it were our own. bottles are made of the best plastic materials available. Our premium bike bottles are made of LDPE plastic which is soft and easy to squeeze.
- Many of our drinkware items are made of PETE - the safest plastic on earth. Our lids are leakproof and our printing will stay bright and beautiful ... and on the bottle for years under the toughest care.
- Our art department utilizes the most advanced software to help make your bottle design a masterpiece.
- Custom ink matching guarantees your logo or design prints exactly the way you want. Staff artists are available to offer creative assistance and advice – such as helping select the best color combinations, suggesting cost savings ideas ... and more.
- Our color separation and registration technicians scrutinize each bottle for quality. Our "plastics works" artisans reflect this commitment to excellence through the use of automated systems that transform pellets of raw polymers into lustrous sports bottles.
- **Our Pledge** - We believe every bottle we manufacture and imprint for you is a symbol of your business. Our bottles will always enhance, never detract from, your logo, message or quality image! Our Quality will be built in ... before YOUR NAME goes on! We Guarantee It

Sell Add-Ons!

- The reason to imprint logos and event information on a event bottle is to not only provide the participant with a convenient means for hydration but also a reminder of the name of the good-hearted company who helped sponsor the event. If the item is attractive and user friendly the attendee will use it long after the event is over ... multiplying the number of times the attendee recalls the event and the sponsor.
- One way to enhance the perceived value is by printing in multiple ink colors and or using our Sun Activated material. Adding our Fruit Infusion Baskets or Ice Chill'rs will also give additional use and life to the product ... and the message.

Sell "MADE IN THE USA"

- To our North American customers, this means faster service and lower shipping costs than bottles imported from Asia or Europe and to some extent, a guarantee of quality and responsibility. It's far easier to correct a problem within a 4 time zone area than half way around the world.
- To our USA clients, even in an era of global commerce, there is still a national pride factor in having a product that has been made within one's own borders. Of course our product must compete against all comers, foreign and domestic, from both a cost and quality standpoint to win the business.

You need them when?

- USA Quality? Well much has said about quality of products from various parts of the world. We believe that no one nation or geographical area has a monopoly on quality ... even with bottles. However, the "Made in USA" label does assure our domestic and international customers of products made of raw materials that are manufactured to U.S. health standards, and are made by a labor force that is protected by the highest safety and compensation standards in the world.

What's in Your Bottle?

Why Bottles?

Broad Demo

Age 2 to 102, all walks of life and life styles ... ANYONE WHO'S THIRSTY!

Utility

Used at home, office, school, park, in the car, plane, or bus.

Low Cost

Cost effective advertising. It's all about eyeballs - pass along impressions
Seen by co-workers, family, neighbors, friends, at the beach, gym, etc.

Longevity

Lasts up to five years. Compare with pens and pencils, calendars, other disposable or easy to lose items.

Large Billboard

Unlike small items, bottles can be read at 7-10 feet.
Multiple locations for printing (select models)

Value

Excellent retail value to cost ratio - Same bottles retail in stores for \$3.95 - \$15.00 (depending on model)

Plus

- Unlimited pallet of colors - Over 25 bottle colors in stock (selected models).
- Huge art potential - 4 color process. 8 spot colors. Pictures, cartoons, landscapes, fine art (select models).
- Use as In-Pack - Energy Bar, brochure, sample, etc.

CONFIDENTIAL

FOR BICYCLE, SPORTING GOODS AND PROMOTIONAL DISTRIBUTOR SALES PERSONNEL EYES ONLY

My name is Terry Brown. I'm the owner of Seacoast Bike Bottles and... **I Want to Help Put More \$\$\$ in Your Pocket in 2021, 2022, 2023 ...**

In talking with distributor sales reps across the country we've found that the #1 reason they don't write custom orders is the time it takes to not only write the order, but work with the dealer on art issues, ink colors, logo designs, type styles, bottle and cap color choices ... and on and on ...

Here's an Idea... *Let Me Do it For You!*

I've Made It as Easy as 1 - 2- 3. To write a custom imprint order, ***here's all you have to do:***

1 ***Sell the dealer on the idea.*** "We've got a great custom bottle program featuring high quality Seacoast bottles, great printing and fast turnaround at a very competitive price. Can I ask Terry Brown to call you with the details?"

2 ***Call me*** with the dealers contact info and ***I'll take care of all the rest.***

(a) I will work directly with your dealer to complete all the details - bottle sizes, colors, artwork, etc.

(b) I'll send the dealer's order to your company for a purchase order.

(c) I'll guide the order through art, production and shipping.

3 Your company will invoice the dealer and ***You collect all the praise! ... and the commission! "Good Job!"***

"Call Me!"

888-551-9009
(TOLL FREE)

Full disclosure - this is just a photo of some cool dude we found on the web

The Sale that Keeps on Selling!

This custom imprint program not only pays off today ... but most dealers will reorder again this year ... next year ... and the year after that ... and so on. We will send you and your dealer a reminder when it's time to reorder, along with your company's bottle order form.

When you need help selling custom imprint bottles,

Who Ya' gonna' call? CALL TERRY!

We Want To Help You Sell!

MADE IN THE
USA

HDPE vs. LDPE

HDPE
(see page 8)

Compare:

You will find these bottles on page 6 and 8. Both bottles look the same, but one costs significantly more than the other.

Why? What's the difference?

Since you may be giving this bottle away, why spend the extra money for the LDPE version?

Good Questions...

LDPE
(see page 6)

HDPE - High Density Polyethylene

HDPE plastic is less expensive as it is used in a wide variety of products and is sold in far greater volume than LDPE. It's available from many manufacturers.

In addition, because of its stiffness, it takes less of the material to support a cylindrical shape such as a water bottle. It generally isn't used where flexibility is a requirement.

Less expensive and lightweight in and of itself are good qualities for many products. It's not such a good idea for a sports bottle that's meant to be squeezed.

The REAL Difference for You

We believe cheap bottles are false economy. If your client's budget demands it, then our HDPE bottles are the best "economy" bottles you can buy... but isn't your event and sponsor's brands better represented by a quality product?

The trade-off is in the benefits. We've found that consumers prefer the softer feel, and the stabilizability of higher quality LDPE Bottles. A bottle that is too hard to squeeze won't be used more than a few times. If a promotional item is unused, the ad message is not effective.

Our LDPE bike bottles are built to be used regularly ... and show off your sponsors message for 5 years or more.

Now that's real economy!

LDPE - Low Density Polyethylene

LDPE plastic is best suited for sports bottles with sport caps as it is easy to squeeze water through them. Hard-sided bottles are fine when used with a straw or without a lid, but if they function by being squeezed, it shouldn't take a lumberjacks grip to squeeze the liquid through the sports cap.

It's difficult to quantify, but a bottles made with LDPE simply feels better in the hand.

Yes. It costs more but it provides the end user with a far better result.
