## **Bottle Art Ideas**

Seacoast Bike Bottles has made it easy for you to Create great looking custom imprint bottles for your shop or event.

Choose the Bottle Art Idea (by number) and substitute your Shop Name, Telephone, URL, etc. In place of the dealer info shown in the art examples and ***Presto! Chango! Great Camera Ready Art!***

All of the art can be produced in multi-color. A few of the designs are shown with 2, 3 or 4 ink colors. Although you may choose any ink color you wish, we recommend you choose colors that match one of our many Cap Colors.

We also recommend light ink colors on dark bottles colors and dark ink colors on light color bottles ... black ink on black bottles is never a good idea!

- 1 Two ink colors are better than one. The added cost pays big dividends.
- 2 Contrast Bottle and Cap colors at no extra cost. Choose a cap color that matches 1 of the ink colors to enhance the look and perceived value.
- 3 For best results, print dark colors on light bottles and light colors on dark bottles.
- 4 Print on the top panel of our 25, 26 & 28 oz. Bottles at no extra cost. It's an excellent location to feature phone numbers, web sites, slogans, etc.
- 5 Big, bold graphics always work best. The less copy the better.
- 6 The better your bottle looks, feels and performs, the longer your client will use it and see your message. Quality sells... and keeps on selling!
